Business Intelligence and Data Analyst with 8+ years of experience transforming complex datasets into actionable insights that support executive decision-making. Completed a Master of Science in Applied Business Analytics from Boston University, with expertise in Python, SQL, Power BI, machine learning, predictive analytics, statistical modeling, and data visualization. Proven ability to develop executive reports, identify trends, and communicate analytical findings that drive strategic business decisions.

Employment History

Mid All-Source Analyst

Mar 2025 – Present

Amentum – United States Central Command (USCENTCOM) at Tampa, FL

- Analyze multi-source operational datasets to identify trends, risks, and emerging patterns supporting executive decision-making across USCENTCOM operations.
- Develop executive reports and analytical briefings that translate complex technical information into clear, business-focused recommendations for senior leadership.
- Collaborate with cross-functional organizations to deliver integrated analytical assessments that improve situational awareness and support executive decision-making.
- Deliver analytical reporting that informs operational planning and strategic decision-making for senior leadership.
- Present analytical findings to senior leadership, supporting strategic planning and operational decision-making.

Intelligence Specialist (Intelligence Analyst) | United States Navy

Nov 2017 – Nov 2024

Norfolk, VA

- Produced more than 1,000 analytical reports supporting executive decision-making.
- Led teams of up to 15 analysts during high-tempo operations.
- Analyzed complex datasets to identify trends, risks, and actionable insights.
- Developed reporting processes and standard operating procedures improving organizational efficiency.
- Presented findings to senior leadership and cross-functional stakeholders.
- Managed security programs supporting over 40 personnel.

Education

M.S. Applied Business Analytics

Jan 2025 – Aug 2026

Boston University

Completed June 2026 | Degree Conferral August 2026

B.S. Cybersecurity Management & Policy

2021 – 2024

University of Maryland Global Campus

Graduated with Honors

Projects

Boston University graduate projects

Graduate portfolio features 15+ projects in machine learning, business intelligence, forecasting, optimization, and risk analysis.

- Machine Learning & Predictive Modeling
- Business Intelligence Dashboards (Power BI)
- Monte Carlo Risk Simulation
- Bayesian Statistical Analysis
- Forecasting & Time Series Analysis
- Business Optimization
